  - 3.1. The (EMD) shall be denominated in Indian Rupees and shall be paid in the e-procurement portal using the following payment modes:
    - a. Credit Card.
    - b. Direct Debit.
    - c. Net Banking
    - d. National Electronic Funds Transfer (NEFT)
  - 3.2. The EMD shall not bear any interest and will be refunded to
    - a. successful tenderer on receipt of Agreement and Bank Guarantee.
    - b. unsuccessful tenderer upon finalization of tender bid and award of tender to successful bidder.
    - c. all the tenderers if the tendered item is cancelled or retendered.

4. The tender documents and all correspondence's relating to the bid should be in **English language only**.
5. **Technical bid should comprise of (uploaded copy of documents should be self attested and stamped) -**
  - 5.1 Brochure/Catalogue and Data sheet of the equipment.
  - 5.2 Proprietary certificate from the manufacturer mentioning the unique technology or feature/s mentioned apart from the brand name (If applicable).
  - 5.3 Pre requirements required at the installation site (Before submitting the bid, the tenderer should make pre-visit to the installation site and indicate the requirement along with the price bid wherever necessary)
  - 5.4 Delivery Period of the item to be supplied and Time required for installation from the date of purchase order has to be indicated.
  - 5.5 List of Institutes where the equipment has been supplied.
  - 5.6 Copy of GST, PAN, TIN document
  - 5.7 Whether tenderer is manufacturer / accredited agent / sole representative, indicate details of principal's name & address. The offers of tenderer who are not manufacturer or direct authorized agent will be summarily rejected. Sub- distributors will not be accepted.
  - 5.8 Non – blacklisting certification that the firm has not been blacklisted in the past by any government/Private institution and certification for No Vigilance/CBI case pending against the firm/supplier by making an affidavit on non – judicial stamp paper of `10/-.
  - 5.9 Declaration towards acceptance of all terms and conditions should also be provided.
  - 5.10 Technical Compliance Sheet to be uploaded by the supplier.
6. **Price Bid should comprise of-**
  - 6.1. **Quotation should be only for DAP i.e., NIMHANS DOOR DELIVERY PRICE** and should have detailed information as per tendered specifications (such as main equipment cost, each article wise/spares rates, taxes, other Government levies, Customs duty, any local agency commission, transportation, delivery of the equipment to the Institute premises, installation and commissioning etc. Separately along with total cost) with manufacturers name, License number and name of the brand/make. Tender bids without price bid/quotation will be rejected. **Detailed breakup of the cost should be provided under” Action Column” by clicking the “%” symbol which will be mentioned as Added Statutory Components.**
    - a) In case of Import, Customs Duty will be considered only at 5.5% of the total Purchase order value and the required Customs clearance documents will be provided by NIMHANS on prior intimation (atleast 7 working days prior intimation) of shipment along with details and relevant documents by the supplier.
    - b) If the tenderer is quoting in Indian Rupees (INR) for items NOT MANUFACTURING IN INDIA (NMIC), the CUSTOM DUTY EXEMPTION CERTIFICATE WILL NOT BE ISSUED BY THE INSTITUTE. The Rate quoted should be inclusive of Custom duty & other incidental charges.

- 6.2. Exchange rates for Foreign Currency will be considered as per the closing value on previous working day from website <https://rbi.org.in/scripts/ReferenceRateArchive.aspx> (only for GBP, EURO, USD & JPY) and for other currencies as per the decision of the Institute.
7. Successful tenderer decision will be made on the basis of base price +Warranty period (wherever applicable).
8. The tender bids (technical and price bid) should be typewritten; every correction in the tender should be initialed along with seal by the tenderer, failing which the tender will be rejected. All pages of the bid submitted must be signed along with seal and sequentially numbered by the tenderer.
- 9. Evaluation of Bids:-**  
The technical bid of the tenderer will be evaluated to determine whether
- They are complete with respect to specifications.
  - They are free from computational errors.
  - The requisite documents have been submitted and properly signed.
- 10. Tender Opening:**
- The Technical bids will be unlocked through E procurement portal in the Committee Room, Adjacent to Registrar Chamber, NIMHANS, Bengaluru on the date specified in presence of tenderers or their representatives who choose to attend. The Tenderers' or representatives who are present shall submit authorization letter along with copy of Photo id proof and shall sign a register evidencing their attendance.
  - The Financial bid of the technically qualified tenderer's only will be opened on a notified date. NIMHANS will inform all the Technically Qualified Tenderers through e-tendering system, after decryption of their Financial bid which could be viewed automatically by the respective technically qualified tenderer's. In this regard no separate intimation shall be made by the Purchaser.
11. Equipment and its accessories should be covered with **minimum warranty period of 05years** for normal or regular wear & tear from the date of complete installation (Ready to use in all respects). In case of software's, the validity of the license key should be clearly mentioned and should have user define provision with option to switch over from one system to other system of the same kind within the validity period.
12. A tenderer having once given a tender bid shall not withdraw it after its acceptance/opening and if does, the EMD paid by the tenderer will be forfeited and the tenderer is liable to make good the loss sustained.
13. If required, the tenderer should demonstrate the quoted model of the equipment at the institute during the technical evaluation, failing which their bid/offer shall be rejected. The tenderer will be intimated that they should get ready for demonstration. No request for extending time for demonstration will be entertained. Failure to demonstrate, their offer will be rejected.
14. The tenderer should supply the circuit diagram and instruction manual of the tendered equipment/s at the time of supply of the equipment.

15. Necessary training / instructions on operation of the system should be given by the qualified engineers of the tenderer firm to NIMHANS technical staff/sat free of cost after completion of the installation.
16. The successful tenderer should immediately submit an acceptance letter duly signed and sealed for the rate/s and offers agreed by both the parties to the Head of the Institution within reasonable time on receipt of the Purchase Order (Agreement Specimen will be enclosed with Purchase order & Stamp duty to be paid by the tenderer). The successful tenderer should also furnish a Bank guarantee only from a Nationalized bank to the extent of 10% of the total purchase order value, valid for 60 days beyond the completion of the warranty period of the equipment, no split period bank guarantee will be entertained.  
In the event of the successful tenderer failed to supply the item/execute the agreement/submit the Bank Guarantee the EMD deposited by them shall stands forfeited.
- 17. Payment terms:**
- 18.1** Payment will be made only after good working condition of the equipment certified by the end user. **NO ADVANCE PAYMENT WILL BE ENTERTAINED.**
- 18.2** In case of foreign payments made by Letter of Credit (LC) or wire transfer, bank incidental charges within India will be borne by the Institute and outside of India should be borne by tenderer.
- 18.3 Any amendment or extension of LC sought by the tenderer thereafter amendment charges should be borne by the tenderer only.**
- 18. Uptime Guarantee:**  
Penalty Clause for non-functioning of equipment in term of hardship to the patients and financial loss to institute: 95% up time of 365 days (24 hours a day) that is from the day of successful handing over of the whole complex. The company takes the responsibility for the functioning of all the components and equipment, including the third party items supplied and included in the project. The total downtime annually for any reason/involvement of any of the components cannot exceed 5% (all inclusive). No penalty will be levied for the first 24 hours after breakdown. Subsequently, 1.00 Lakh will be levied as penalty for every 24 hours of downtime until 7 days from the day of breakdown. If downtime exceeds 7 days the penalty will be 2.00 Lakh/day from the date on which the equipment broke down. In addition to this, warranty period will be extended at double the rate of the downtime period.
19. If, at any time, during the said period, the supplier reduce the said prices of such Materials/Equipment or sales such Materials/Equipment to any other person/organization/Institution at a price lower than the chargeable, the company shall forthwith notify such reduction or sale to the Director, NIMHANS and the price payable for the Materials supplied after the date of coming into force of such reduction or sale shall stand correspondingly reduced.
20. The losses to NIMHANS, Bengaluru, if any incurred on account of purchase made elsewhere by failure, neglect or refusal on the part of the tenderer to supply according to the terms of agreement will be recovered from them. If any article or things supplied by the tenderer have

been partially or wholly used or consumed in the hospital and they are subsequently found to be in bad condition, unsound, inferior in quality or description, not in accordance with samples or otherwise faulty or unit for use, the wholesome of the contract price or price of such articles or things will be recovered from the tenderer. The tenderer will not be entitled for any payment whatsoever, for such articles for infringements of the stipulation of the conditions or for justifiable reasons the contract may be terminated by the Director and the tenderer shall be liable for losses sustained by the NIMHANS on the consequences of the termination which may be recovered from the EMD/Bank Guarantee or from their invoices due to them. In the event of such amount being insufficient, the balance will be recovered personally from the tenderer.

21. Any corrections/changes in the tender will be uploaded as corrigendum in the NIMHANS and E procurement websites only.
22. If the tender last/opening date falls on any general/government/institute holiday(s), then the successive dates will be postponed by equivalent days of holiday(s), however the time remains unchanged.
23. The Director reserves the right of ordering/not ordering/cancelling/increase or decrease the quantity and to reject any or all tender quotations without assigning any reason. The decision of the Director, NIMHANS, Bengaluru, shall be final in all the controversies that may arise in the matter. Any dispute arising out of this will be subject to the jurisdiction of the Court in Bengaluru.
24. Failure to adhere any of the above terms and conditions the bid(s) may be rejected and EMD may be forfeited.
25. None of the terms and conditions of the supplier shall be applicable to the purchase contemplated hereunder, irrespective of it being attached to any documents to be provided to NIMHANS. Such exercise shall have no meaning and binding effect unless the same is accepted by NIMHANS in writing.

**NOTE: Please keep checking the NIMHANS and E-Procurement websites regularly for any further updates.**

**E-mail: [bssrao.nimhans@gmail.com](mailto:bssrao.nimhans@gmail.com) / [bssrao@nimhans.ac.in](mailto:bssrao@nimhans.ac.in)**

**Specifications for Automatic Rat / Mice cage and rack washer for Laboratory Animal Facility:**

- An electrically operated heavy duty, large capacity and hydro spray washer with capability of washing most of the equipments and materials used in Animal Research facility such as used animal cages, lids, trolleys, conventional racks, IVC racks, water bottles and other miscellaneous items used in the care of laboratory animals (mice, rats, guinea pigs and rabbits etc.).
- The whole machine should have exterior stainless covering along with applicable thermal insulation. The washing chamber, technical compartment, panels, spray headers or oscillating arms, wash and rinse tank, piping, door panels should be made of at least AISI 304 stainless steel. Pump housing and impeller, Process valves should be made of 316 stainless steel.
- Full glass, automatic sliding doors to save floor space in front of the unit. High pressure water spray system to wash rodent cages, racks, water bottles and other washable consumables of the animal facility. Optional heat recovering system and closed loop effluent cooling system. Standard non-proprietary programmable logic controller (PLC) for easy cycle configuration and maintenance. Compatibility with VHP Systems to avoid a separate decontamination room, costs and valuable floor space.

1. **Washing Chamber:** The washing chamber should have suitable dimensions to accommodate the racks of larger size and other large equipments easily for washing/cleaning. The floor should be made of stainless steel and properly designed to act as a primary debris filter and it should facilitate easy cleaning and maintenance. The washing cycle should have minimum 4 phases like, washing with temperature 50-60 degree, dripping, Rinsing with 82 degree and steam extraction.
2. **Doors:** This machine should have double doors and should work as pass through system between clean and dirt area. Doors should be with double-layer tempered glass and must consist of two 6mm layers with Poly vinyl butyral film in between. Doors (frames, glass and gaskets) to provide 100% air tight application, full vision inside the chamber, and reduced noise and heat transmission when the machine is running. The door opening on clean and dirty side needs to be provided as per space availability. Doors should facilitate the easy handling and management of daily operations smoothly. The appropriate provisions should be present to assure the operator safety during operations. It should facilitate unloading of the material in to clean side or dirty side again as per the procedural requirements at site. Door should come fitted with the inflatable

- gasket to ensure the air-tightness of the chamber during operations. During a standard cycle the maximum temperature measured on the external glass cannot exceed 42°C.
3. **Mechanical Core or Technical Compartment:** The side of the mechanical core or technical compartment towards left or right side needs to be provided as per the space availability.
  4. **Monitoring, Control and Data Management System:** The machine should have the built in monitoring system that automatically controls all required process operations and functions. The control system or operator interface should be in place to program and pre-set several different cycles as per various washing requirements. It should be user friendly and should allow easy parameters setting/controlling. It should have programmable security access. The machine should have the appropriate data management system in place.
  5. **Spraying System:** The machine should come with oscillating arms fitted all along the side walls of the chamber, with wash and rinse nozzles and the rotation of the arms should cover all the wash surfaces. The WASH & RINSE should come with a separate circuit to avoid the cross contamination
  6. **Self-Cleaning Filter:** Tool-free self-cleaning wash water filtering system should be available and back-flushed at the end of each washing phase to ensure the debris removal from the mesh during the self-flushing phase.
  7. **Detergent Dosing System:** The machine should be equipped with a detergent dosing system with independent pumps for acid and alkaline washes.
  8. **Bottle Washing System:** The machine should come with a dedicated set-up for bottle washing and allows washing of the bottles crates on the required presentation rack/carts.
  9. The Bid should include all the required accessories required for the machine to maximize the wash load like presentation racks (dedicated/universal for cages, lids etc.), bottle processing racks/carts, baskets/crates and other accessories as applicable.
  10. **Safety System:** The machine should have the personal safety system in place such as emergency bars/stop cables inside the chamber and emergency switches outside the chamber in both clean & dirty sides as an integrated option.
  11. Noise level generated by the machine should be less than 80 decibels.
  12. The details about the Wash cycles validation support and accomplishment should be provided. The required wash cycle should be completed in less than 5 minutes with details of different cycle times as applicable for this machine.
  13. The applicable international standard certifications for quality, safety and environmental impact for this machine be provided.
  14. The full validation documents (IQ, OQ, PQ etc.) as applicable should be provided.
  15. Pre-installation and utility requirements for installation and running the system should be clearly mentioned. There is no provision of centralized utilities such as steam, hot water and compressed air at site. Please mention the specific utility systems required for running this machine.
  16. Manufacturer should have standard certifications (ISO 9001 and ISO 14001).
  17. Pre-installation and utility requirements for installation and running the system should be clearly mentioned.
  18. **Minimum 5 years Warranty.**
