DESCRIPTION	PRICE
Based on the previous discussions with NA ICU team, below additional features are to be added to the currently working NIMHANS-ICU Monitoring Chart application <ul style="list-style-type: none"><li>Adding admission notes</li><li>Providing discharge summary</li><li>Provide an option to strike-through the earlier instructions</li><li>Options to record scale details (Around 10 scales. If the scoring is straight forward addition, it would be done in the application itself. For complex or propitiatory scales, a weblink will be provided and the scores can be recorded in our application)</li><li>Print the summary in the given format (Format will be provided by NIMHANS ICU team)</li><li>Data aggregation: The data recorded at individual ICU would be aggregated at the common server (at data center, once in a day). Aggregated data would be pushed to individual servers so that if a patient gets re-admission in a different ICU, all previous data would be readily available</li></ul>	1,00,000 =00
