Organizing team

Mrs. PL Lalitha

Mrs. S Sivakami

Ms. Gouripriya Jayasuryan

Mr. Pradeep K Thankappan

Mrs. Sreepa S Peethan

Mr. Geo Sebastian

A parallel Nurses' Conference is organized along with International Conference on Recent Advances in neurotraumatology and 29th Annual Conference of Neurotrauma Society of India (ICRAN-NTSI 2020) on 21st and 22nd August 2020 for nurses who are working in, or are interested in neurotraumatology. This is organized to provide nurses a platform to update knowledge, exchange views and share experiences about various aspects of care in neurotrauma. Nurses working in emergency departments, critical care units, neurological and neurosurgical settings as well as nurses who are working in allied specialties with special interest in neurotrauma are highly implored to attend the conference.

Neurotrauma care is truly challenging and often mercurial in nature. We can assure you that we are well cognizant of the challenges nurses face in neurotrauma care and this conference can serve as a platform to bring forth evidence based answers that can augment your nursing practice. We intend to have a host of various scientific deliberations in multiple areas including prevention, acute care and rehabilitation of neurotrauma victims. There will be opportunity for nurses to share their experience and research by submitting abstracts for platform or poster presentations. There will be prizes for best platform and poster presentations.

The organizing team will strive their best over coming months to meet your anticipations and make this conference a successful event. This conference, for sure will be a melting pot for nursing professionals across the globe working in various settings in different positions.

We hope this conference will be a worthy scientific course and also provide you the opportunity to explore Bangalore, the Silicon Valley and Garden City of India.

We look forward for a very meaningful and productive expedition.
